OCLC conducted a member survey to understand librarians' top priorities, current key initiatives, thoughts on service and top methods for keeping current on happenings in the library field.

**Most UK public library staff:**

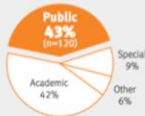

- Anticipate the top reason users are using their library will change in five years
- Consider demonstrating the value of their library to funders to be their top priority
- Rely on discussions with their colleagues to keep informed about library trends.

Delivering e-books and other resources is the most popular initiative for the current year.

While public library staff believe that borrowing books and other materials will remain the main reason for library use in five years, they believe that accessing online resources and using the library for meetings and social gatherings will replace leisure reading and using computers in the top three reasons for library use.

# Władysław Reymont

## Władysław Reymont

From Wikipedia, the free encyclopedia

**Władysław Stanisław Reymont** (May 7, 1867 in [Kobiele Wielkie](#) – December 5, 1925 in [Warsaw](#)) was a [Polish](#) [novelist](#) and the 1924 laureate of the [Nobel Prize in Literature](#).<sup>[1]</sup> His best-known work is the award-winning four-volume novel *Chłopi* (The Peasants).

[Contents](#) [\[show\]](#)

### Surname [\[edit\]](#)

Reymont's baptism certificate lists his original surname as Stanisław Władysław Rejment. The change of name from "Rejment" to "Reymont" was made by the author himself during his publishing debut, as it was supposed to protect him, in the Russian part of Poland, from any potential trouble for having already published in [Galicia](#) a work not allowed under the Tsar's censorship. [Kazimierz Wyka](#), an enthusiast of Reymont's work, believes that the correction could also have been meant to remove any association with the word *rejmentować*, which in some local Polish dialects means "to swear".

### Life [\[edit\]](#)

Reymont was born in the village of [Kobiele Wielkie](#), near [Radomsko](#) as one of nine children to Józef Rejment, an organist. He spent his childhood in [Tuszyn](#) near [Łódź](#), to which his father had moved in order to work at a richer church parish. Reymont was defiantly stubborn; after a few years of education in the local school he was sent by his father to [Warsaw](#) into the care of his eldest sister and her husband to teach him his vocation. In 1885, after passing his examinations and presenting "a tail-coat, well-made", he was given the title of journeyman tailor – his only formal certificate of education.<sup>[2]</sup>

To his family's annoyance he did not work a single day as a tailor. Instead he first ran away to work in a travelling provincial theatre and then returned in the summer to Warsaw for the "garden theatres". Without a penny to his name he then returned to Tuszyn after a year and, thanks to his father's connections, took up employment as a gateman at a railway crossing near [Koluszki](#) for 16 rubles a month. He escaped twice more: in 1888 to Paris and London as a medium with a German spiritualist, and then again to a theatre troupe. After his lack of success (he was not a talented actor), he returned home again. Reymont also stayed for a time in [Krosnowa](#) near [Lipce](#) and for a time considered joining the [Pauline Order](#) in [Częstochowa](#). He
